

Name (same as ballot name): Sophia Cyris

Statement of Qualifications:

As a third-generation South San Franciscan, I understand our city's history, values, and the challenges we face. My background in public service, government, law, and public policy has prepared me to evaluate complex issues, listen to residents, and pursue practical solutions.

I will advocate for housing opportunities for renters and homeowners at every income level. I support responsible growth that expands housing opportunities, strengthens local businesses, and ensures our roads, transit, utilities, and public services have the capacity to support growth. South San Francisco should serve all its residents. We must support our seniors, working families, youth, homeowners, renters, and local businesses while helping longtime residents remain in the city they helped build.

Service has always been part of my family's values. Two of my grandparents retired after blue-collar careers in South San Francisco, while my other grandparents served their community as a pastor and a teacher. Their example of hard work, integrity, and service inspires me everyday.

I will bring energy, discipline, and an independent voice to the City Council. I am committed to a city government that is open, accountable, accessible, and focused on delivering results for every resident. I would be honored to earn your vote. /
