Project Updates and Insights

2025 First Edition

Downtown & Old Town Lighting Improvements

Project Manager: Jeff Chou, PE

Why It Matters:

Lighting is more than visibility - it is about safety, sustainability, and community vitality. Upgrading fixtures in Downtown & Old Town will:

- **Improve visibility** for pedestrians, cyclists, and drivers
- **Encourage** more foot traffic and business activity
- **Preserve** the historic look of our iconic light poles while upgrading to modern technology
- **Support** the City's sustainability and resiliency goals with big energy savings

What We'll Accomplish:

- **Upgrading 220 streetlights** along Grand Avenue and Linden Avenue with energy-efficient LEDs and replacing luminaires on existing historic poles in Downtown and Old Town.
- **Upgrade fixtures** in Cypress and Pine Park to improve safety for park users.

The Vision:

A Downtown and Old Town that are well-lit, welcoming, and sustainable—a place where residents feel safe, local businesses thrive, and the historic character of our community shines brighter than ever.

Next Steps:

- Install upgraded light fixtures Downtown and in Old Town.
- Extend improvements to Cypress & Pine Park.
- Monitor performance and collect community feedback after installation.

- **Grant Funding:** \$1,263,372 from Peninsula Clean Energy ⚡
- **Construction Contract:** \$623,860 (Total authority \$751,750)
- **Scope:** Replace and upgrade luminaires on historic poles + park lighting
- **Contractor:** DC Electric Group, Inc.
